## WHICH CERTIFICATE TO USE?

### SAFARI BROWSER

Select the certificate that has **Smart Card Logon and Client Authentication** attributes.

How to determine:

Select a certificate >> select **Show Certificate** at the bottom

Another window will open. Scroll down to find **Purpose #1 Smart Card Logon and Purpose #2 Client Authentication** in the Certificate Information window. Use that certificate.

The website "login.dtic.mil" requires a client certificate.  
This website requires a certificate to validate your identity. Select the certificate to use when you connect to this website, and then click Continue.
